

# NordicProof

Testing solutions for  
world class healthcare

Nordic  
Innovation

# Nordic Proof

## Consortium of premium test facilities in the Nordics

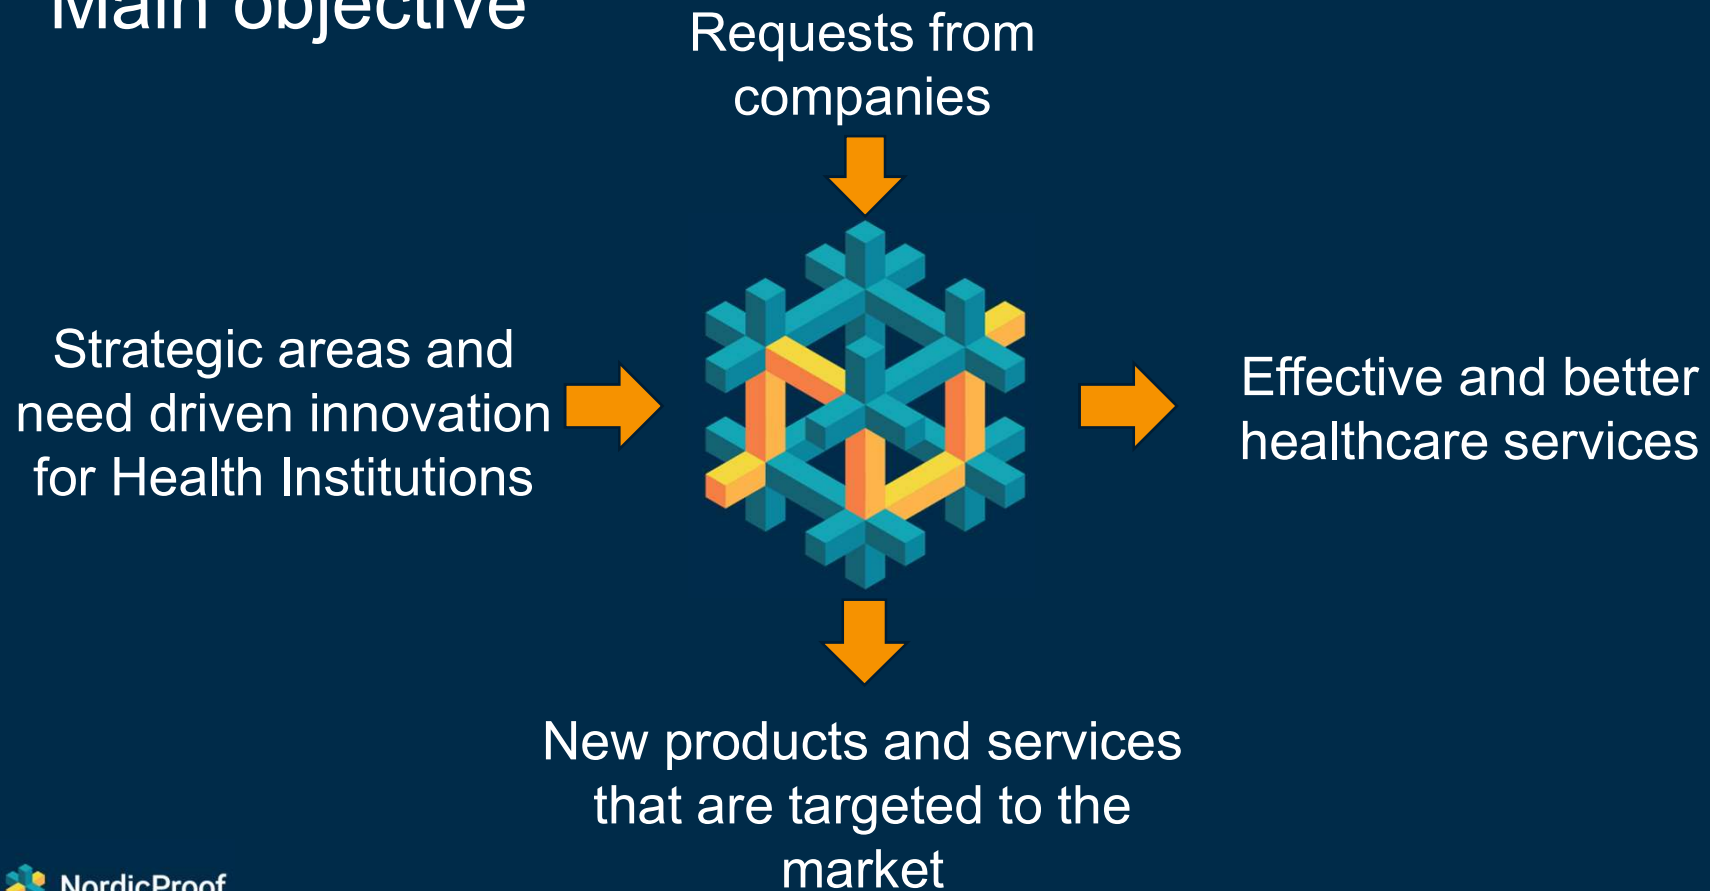

## Mission

Our network offers easy access to the most renowned health institutions and testing hubs within healthcare in the Nordics.

Professional expertise provides predictability and solid services based on real customer needs.

# Main objective

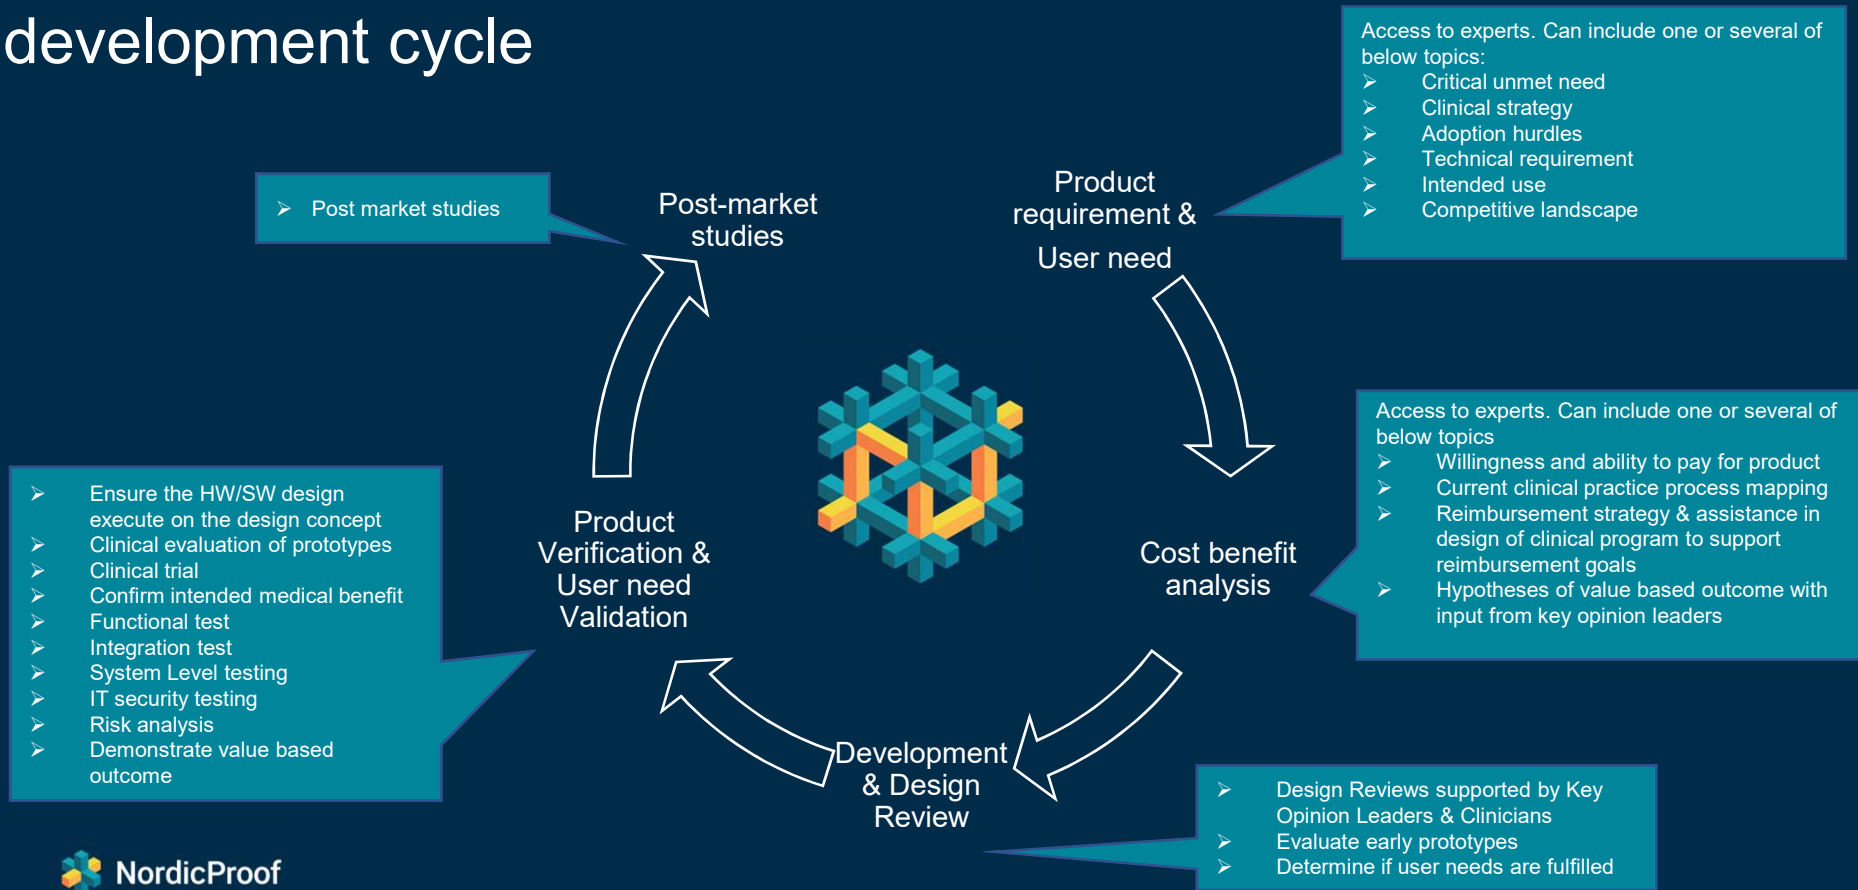

## What we offer to the health industry

- One point of contact to a network of world class health institutions in the Nordics.
- Efficient, transparent and on time services.
- Tested with Nordic quality and expertise from idea to finished product.

*Nordic Proof – a way the get to know the Nordic market and their needs*

# Services throughout your development cycle

# How to get in contact?

## Fill out the form

The inquiry form is filled in and the more detailed information you can provide, the better we can match you with the right partner(s) that offer the service you are looking for.

## We connect you

When the inquiry form has been received we will review and connect you to the most suitable partner(s) who will reply directly to you.

## Testing and documentation

The actual testing will be done at the chosen partner's site, and will also be responsible for all documentation after completion.

## Fill out the form

# Danderyd Hospital, Sweden

Danderyd Hospital is one of the largest emergency hospitals in Sweden, situated in the center of Stockholm County. Our main operations are within Women's Healthcare and childbirth, Emergency Healthcare and Rehabilitation Medicine. DS Innovation is well-established in the hospital's operations and has long standing reputation of contributing to product development within healthcare.

## Core competence and focus area

- Direct contact with healthcare staff and clinics.
- Regulatory expertise inline with national requirements.
- Implementation guidance of biomedical technology in healthcare.

## Services offered

- Need assessment
- Test setup
- Clinical trial
- Brainstorming-meeting
- Risk analysis
- CE marking support

## Why Danderyd Hospital?

With our long experience of providing support to smaller and medium-sized companies we are one of Swedens best partners for development of new services, methods and technology for healthcare. We have an infrastructure in place within the hospital which facilitates a direct management of development projects.

# Nordic Medtest AB, Sweden

Nordic Medtest AB is a testing and quality assurance company in Sweden and is a subsidiary of Inera AB, which in turn is owned by SALAR (Swedish Association of Local Authorities and Regions), where all Swedish regions and municipalities are members.

## Core competence and focus area

- Software testing
  - Interoperability
  - Usability
  - Information security
  - Laws and regulations

## Services offered

- Providing rich test environments
- Requirement-based testing
- Test automation
- Performance testing
- Penetration testing
- Test strategy development
- Test management
- Test education

## Why Nordic Medtest?

By providing testing and quality assurance, Nordic Medtest contributes to more usable and safe e-health.

# VihTek – Research and Test Center for Health Technologies

As an integrated part of Rigshospitalet, VihTek collaborates with all hospitals in the Capital Region of Denmark in testing and implementing new technologies. Our focus is rehabilitation and patient safety, but we have access to clinicians in all areas of hospital care. We tailor our service to each company ensuring that we all benefit from the work we do together.

## Core competence and focus area

- Rehabilitation
- Cognition
- Patient safety
- Gamification/VR/XR

## Services offered

- Workshops with relevant experts
- Usability testing
- Technology assessments
- Clinical studies
- Consulting regarding user perspective, product requirements etc.

## Why VihTek is part of Nordic Proof?

We highly appreciate collaborations with companies in developing and testing new innovative technologies that can help us to enhance rehabilitation, reduce complication and provide a better health for our patients.

# Sunnaas Hospital, Norway

Sunnaas Rehabilitation Hospital is Norway's largest specialist hospital in the field of physical medicine and rehabilitation. The hospital provides multidisciplinary rehabilitation for patients with complex functional impairment following illness or injury.

## Core competence and focus area

- Movement
- Cognition
- Patient safety
- Gamification/VR/Robotics
- Technology & e-health

## Services offered

- Living lab testing
- Device testing
- Clinical trial
- Consulting
- Research/multi-centre studies

## Why Sunnaas?

Clinical treatment, research and innovation form the basis of the hospital's activities

Services provided nationally/regionally, 8000 patients a year

Dedicated innovation-, research-staff, and study coordinator
